

Guidance on Funding Eligibility

STP funds can be used on routes of the federal aid system, which include all federal functionally classified urban collectors or higher. To see a map of the federal functional classification system, please go to the following site:

<http://www.tdot.state.tn.us/longrange/functionalClass.htm>

Funds can be used for any type of highway construction. They can also be used for ridesharing, vanpooling, intelligent transportation systems, incident management, and any activity also eligible for transportation enhancement funding.

They can also be utilized on improvements such as:

- pavement resurfacing and marking
- signalization
- lighting
- intersection improvements
- bridge repair and replacements
- sidewalks
- sidewalk repair/maintenance
- streetscaping
- bikeways
- construction of pedestrian facilities for highway crossings
- the inclusion of sidewalks on bridges to link existing or planned trail systems
- grade crossings
- sight distance modification
- adding turn lanes
- school flashing signals
- flashing beacons
- guardrails
- sign replacement
- litter removal
